

Pigstick

Explosive Ordnance Disposal Disruptor

NSN 1385-99-207-8890

The Pigstick Disruptor is an established equipment for disruption of thin walled Improvised Explosive Devices (IEDs). Its use for over 25 years with both UK MoD and other bomb disposal teams worldwide has proven it to be an extremely reliable method of disruption providing a high probability of avoiding detonation of the suspect device.

Pigstick shown mounted using lightweight stand and mounted on Cyclops ROV (inset)

ABP

Pigstick

Explosive Ordnance Disposal Disruptor NSN 1385-99-207-8890

The Pigstick Disruptor is a multi-shot device capable of many firings and requires minimum maintenance. Training may be carried out using the equipment without detriment to its performance.

Pigstick may be deployed using the supplied anti roll clamp, an optional lightweight stand or by mounting to a Remotely Operated Vehicle (ROV) such as ABP's Cyclops ROV.

Preparation of the Disruptor is straightforward and quick to achieve and may be carried out remotely from the target to enhance operator safety.

Pigstick is constructed from non corroding stainless steel parts which are manufactured in accordance with ABP's ISO 9001 quality approval system. Prior to release each equipment is subjected to an over pressure proof test and flaw detection.

The Pigstick is supplied as a complete kit in a valise style holdall which includes pockets to secure all parts. The kit contains the following items:

- Disruptor Main Body
- Disruptor Rear Body
- Split Sleeve Adaptor (For stand mounting)
- Contact Cover
- Water Bottle
- Loading Tool
- Cleaning Brush
- Cleaning Rod
- Screwdrivers
- Anti Roll Clamp

The equipment is operated by bespoke cartridges which are ballistically proven to offer consistent and effective performance. Cartridges are supplied in multiples of 20 packed in an H83 ammunition container complete with internal furniture, pistons and closure caps.

Technical Data

Disruptor: Length 485mm, Main body diameter 37mm, Rear body diameter 50mm, Weight 2.95Kg

Holdall: Overall Size 500 X 300 X 200mm, Overall equipment weight 4Kg
